PROFILE

Results-driven Software Developer with over 1 year of hands-on experience in designing and implementing robust applications using Java, JavaScript, and React.

Prior to my transition into software development, I held the role of Financial Advisor in an investment fund, where I honed my skills in strategic analysis, risk assessment, and client relations.

EMPLOYMENT HISTORY

Programming teacher at Self employment

September 2023 — Present

I specialize in delivering comprehensive courses in Java, JavaScript, React, and C++.

- Develop and deliver curriculum for Java, JavaScript, React, and C++ courses, ensuring alignment with industry best practices and current technological trends.
- Provide personalized one-on-one mentoring and coaching to students, facilitating a conducive learning environment for skill development and knowledge retention.
- Incorporate hands-on projects and real-world scenarios to reinforce theoretical concepts, enabling students to apply their skills effectively.

Java Developer Consultant at FDM Group, Kraków

November 2022 — Present

- Working as a full-stack developer, where my primary role involves designing and developing web applications
- Implementing front-end solutions using React, creating engaging and user-friendly interfaces
- Development and maintain robust and scalable web applications using Java Spring Boot for the backend and React with JavaScript for the frontend
- Collaborating with the UI/UX design team to create fluid and responsive user interfaces for a seamless user experience across devices and browsers
- Implementing a RESTful web service and microservices architecture with Java Spring boot, optimizing data flow and increasing system performance
- Work with databases including PostgreSQL and MongoDB ensuring data integrity, reliability
- Application containerization using Docker, enabling easy deployment and scaling of services
- Using Git for version control and collaborate effectively with team members

Financial Advisor at Gravier Venture Capital, Kraków

June 2020 — October 2022

During my experience, I worked closely with clients, offering a diverse range of investment products. My responsibilities:

- Investment client service and care
- Acquiring new clients, organizing meetings throughout the country, presenting investments and companies debuting on the stock exchange and
- Effective management of client investments
- Analysis of the stock market situation

- Conducting business meetings
